SHOPPING

Stocking Every Season's Greetings

Start the new year by getting ahead of the game: Buy cards for just about every occasion in the next 12 months with just one click.

Set Editions (www.seteditions.com) sells Cardstock, a boxed set of 40 simple, charming cards, including six birthday, two congratulations, two valentine, six thank-you, two Mother's Day, two Father's Day, two sympathy, two anniversary, four blank, two get-well, six holiday and four New Year's. The box costs \$60 (a bit steep, but still cheaper than 40 average-priced greeting cards).

You still may want to shop for an extra-special card for an extra-special event. But this collection all but guarantees you an entire year without being short a card, no matter what the celebration. Now that's organized.
